

Lade Lakshmi Pradyun Chakravarthy

Software Engineer — Enterprise AI — Backend Systems — LLM Applications

+91 9440111224 pradyun007@gmail.com LinkedIn

PROFESSIONAL SUMMARY

Software Engineer with professional experience building enterprise AI platforms, backend services and intelligent automation systems. Experienced in designing production-grade Python applications, REST APIs, Azure Functions, Retrieval-Augmented Generation (RAG) pipelines, knowledge systems, and LLM-powered developer tools. Previously interned at AMD's Advanced Technology Group, working on TensorFlow Lite, ONNX Runtime, and AI inference pipelines. Passionate about scalable backend engineering, AI infrastructure, and developer productivity.

EDUCATION

BITS Pilani, Hyderabad Campus

B.E. Electronics & Communication — Minor in Computing & Intelligence — CGPA: 7.47

Hyderabad, India

2021 – 2025

FIITJEE Junior College

Class XII — 95.8%

Visakhapatnam, India

2019 - 2021

Sri Prakash Vidyaniketan

Class X — 97%

Visakhapatnam, India

2018 - 2019

WORK EXPERIENCE

Deloitte

Hyderabad

Analyst – AI & Data Science

Jul 2025 – Present

- Engineered **24+ Python APIs** and **32+ Azure Functions** for enterprise AI applications.
- Built AI applications integrating Python, REST APIs, Azure Functions, OpenAI APIs and workflow automation.
- Developed an Outlook automation platform reducing manual effort by **60%+**, including bulk processing and template management.
- Developed AI-assisted podcast and multimedia generation workflows integrating OpenAI, Gemini, GSAP, and Remotion.
- Built Power BI insight generation pipelines using OpenAI APIs and RAG-ready enterprise knowledge bases.
- Designed enterprise scraping pipelines processing **5300+ webpages** and a domain validation framework.
- Received **Deloitte Applause Award** for rapidly adapting and delivering production-ready AI solutions.

AMD

Hyderabad

Co-op – Advanced Technology Group

Aug 2024 – Dec 2024

- Investigated TensorFlow Lite and ONNX Runtime execution pipelines.
- Studied execution graphs, delegates, and runtime internals.
- Worked extensively in Linux environments, understanding AI inference and runtime behavior.

PROJECTS

Cold Email Generator

Personal Project

Nov 2024

- Built an end-to-end enterprise-style LLM application using LangChain, ChromaDB and Llama 3.1..
- Designed Retrieval-Augmented Generation pipelines using embeddings and vector search.
- Developed modular document ingestion, retrieval and prompt orchestration workflows.

Handwritten Equation Solver

Personal Project

Oct 2024

- Developed a CNN-based handwritten equation recognition system.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL

Backend: REST APIs, Azure Functions, Streamlit, JSON, API Development

AI: OpenAI API, LangChain, RAG, Ollama, Prompt Engineering, ONNX Runtime, TensorFlow, Gemini

Data Engineering: Selenium, BeautifulSoup, Web Scraping, Document Processing

Systems: Linux, Git, GitHub, GitHub Copilot, PyInstaller

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AI-900)
- Complete Agentic AI Engineering
- Complete Generative AI with LangChain & Hugging Face
